User Guide

1. Start a module

- Go to the Home page.
- Choose a topic that interests you (Art, Food, Education, Environment, etc.). All topics follow the IELTS Speaking test format: Part 1, Part 2, and Part 3.
-

2. Learn the key fluency features

Every module begins with a short lesson (i.e., **brief instruction section**) on features that make speech sound natural and fluent:

- Connecting words smoothly
- Using weak forms
- Natural pausing and speech speed

3. Listen to model answers

- Click Voice 1, Voice 2, and Voice 3 to play recordings. These are different speakers using similar connected speech features, which helps you absorb natural rhythm and pronunciation.
- Try shadowing while focusing on the fluency features you just learned.

4. Compare with real learner examples

- Below the AI-generated models, you'll see authentic recordings from learners at different levels.
- Compare how beginners, intermediate, and advanced speakers use linking, pausing, and speed.
- This helps you set clear goals for your own speaking.

5. Part 1 – Short answers practice

1) Choose a warm-up question.
2) (Optional) Copy the sample prompt or use ***Doubao*** (click the icon in the bottom right) to brainstorm ideas and useful collocations (natural word combinations), idioms, or discourse markers.
3) Write down your best ideas in the **Notes** box.
4) Click **Record** and speak naturally.
5) Check the automatic **feedback**
6) Next, practice making full sentences using the words and phrases you brainstormed.
7) Finally, record a complete short answer and review the feedback again.

6. Part 2 – Two-minute long turn

1) Look at the topic card.
2) Use the planning space to quickly note down ideas and useful phrases.
3) Record yourself speaking for about 1.5–2 minutes.
4) Aim for:

- Steady speed (not too fast or too slow)
- Clear pauses between ideas
- Natural linking where possible

5) After recording, review the instant feedback. It will highlight where you can improve smoothness and fluency.
6) (Optional) Compare your recording with learner examples if available.

7. Part 3 – Discussion practice

1) Answer the opinion question.
2) Support your idea with reasons and examples.
3) Respond to one or two follow-up questions.
4) The system will continue giving feedback on your fluency, pacing, and use of connected speech.

8. How to use *Doubao*

Doubao is always available in the bottom right corner.

You can ask it to:

- Brainstorm vocabulary and ideas for the topic
- Suggest natural phrases rich in linking and weak forms
- Mark your sentences and show where you can improve fluency
- Act as a mock IELTS examiner
- Guide you through the practice steps

How to open it: click 'Show / Hide *Doubao*'. It may take a second to appear. Feel free to chat with it naturally – it adapts to what you need.

9. Practice order

You don't need to follow the steps in a fixed order. You can:

- follow the recommended learning flow (Brainstorm → Make sentences → Record your full answer) for Part 1, then Part 2, and finally Part 3, or
- Jump directly to any section you want to practice using the navigation menu on the left side of the screen.

10. Advanced features

Once you're comfortable, turn on extended feedback on in-depth features related to lexical resource, grammatical range and accuracy, fluency and coherence, and pronunciation.

You can also explore more detailed examples from **our learner corpus** with detailed annotations.
